

**To:** Colleen Coyle, Senior Water Master  
Montana Water Court

**From:** Arne Wick, Water Resource Specialist Supervisor  
DNRC, Water Adjudication Bureau

**Date:** May 12, 2010

**Re:** Rock Creek Drainage Water Users' Request for Certification of Dry, Rock  
and Clear Creek Water Right Claims (Basin 43D), Case WC-2009-07.

---

This memorandum is in response to REQUEST FOR ASSISTANCE, from the Montana Water Court dated January 29, 2010.

1.

A. Attached as exhibit 1.A is an index of use and filed surface water irrigation rights on Rock Creek, Dry Creek and Clear Creek. This index includes claims in basin 43D and includes claim number, owner name, priority date, flow rate, type of right, source, and point of diversion. Index 1.A is sorted by source and priority date.

## Index 1.A

| Water Right # | Type of Right | Priority Date | Source      | TR    | Sec | Quarter Section | GOV LOT | FLOW      | OWNER1               | OWNER2               | OWNER3                |

**B.** *Granite Ditch Co. v. Anderson et al* (1903) ("*Granite Ditch*"), Cause No. 275 Sixth Judicial District Court, Carbon County. This decision entitled each of said parties to the waters of Rocky Fork Creek (now known as Rock Creek), and its tributaries. This decree appears to include the entirety of Dry Creek and tributaries, Clear Creek and tributaries and Rock Creek and tributaries. Following review of this decision it appears use and filed claims with priority dates prior to May 5<sup>th</sup>, 1903 are precluded.

**C.** Issue remarks that may affect claims of previously decreed waters in case 275, *Granite Ditch Co. v. Anderson et al* (1903), include those related to: source, flow rate, volume, place of use maximum acres, priority date, point of diversion, means of conveyance, period of use, inclusion in decree (late claims), late objection, expansion of right are indentified below in Index 1.C.

Issue remarks in exhibit 1.C include the following remark codes in DNRC's database: FR4Z, G35, G13Z, GA2Z, GIIS, L7, OW4Z, P235, P272, PD3Z, PE3Z, PL3Z, PR3Z, PRIS, PU2Z, RN3Z, SN3Z, SNIS, and VM3Z. Index 1.C contains irrigation claims sorted by source and remark code.

### 3.A

Currently in DNRC's records, there is not clear information regarding the relationship between the Pleasant Valley Canal, and the sources of Rock Creek, Clear Creek, Knowlton Creek and Rosetta Creek. It is unclear if an exchange of water is occurring with the Pleasant Valley Canal (Rock Creek water) and Jeffery Feeder Canal (Clear Creek, Knowlton Creek and Rosetta Creek).

Information available to DNRC and issues identified by Scott Mann's filing (filed February 3, 2010) is summarized in Index 3.A.

#### Index 3.A

##### Basin 43D

|        |  |
|--------|--|
| 200086 | Filed appropriation on Clear Creek. Priority date (8/4/1953) post dates case 646.  |
|        | WRS 1966 indicates approximately 20 acres irrigated within the NW of section 8 T 6S R 21E. Flow rate may need modification pending resolution of maximum acre issues.  |
|        | The majority of claimed place of use doesn't match notice of appropriation dated 8/4/1953. Land in the NE and SE of Section 8, T 6S R 21E doesn't appear to have been irrigated at the time of, or prior to the 1966 carbon country water resource survey.   |
|        | It appears that the period of diversion and period of use should be April 15 to November 15, not April 15 to November 19.  |
| 200048 | Filed appropriation on Clear Creek. Priority date (8/4/1953) post dates case 646.  |
|        | current owner (DNRC records): Rusty D Devries.   |
|        | current owners of place of use appear to be: Gene & Ronna Klamert.   |
|        | Water is not diverted from the source claimed, a historical appropriation from the claimed source cannot be substantiated. Carbon County WRS 1946 appears to indicate 0 acres irrigated. Carbon County WRS 1966 appears to indicate 0 acres irrigated. USDA aerial photo dated 10/3/1980 appears to indicate 384 acres irrigated. Flow rate may require modification based on resolution of maximum acres. |
|        | It appears the correct period of use and period of diversion should be 4/1-11/1, not 4/1-11/4.   |
| 200042 | Decreed right on Rock Creek (F. Sauerwein's 125 MI, priority date 6/1901).   |
|        | WRS 1946 and 1966 indicates approximately 0 acres irrigated. USDA aerial photo dated 10/3/1980 indicates 39 acres irrigated.   |
|        | It appears the correct period of use and period of diversion should be 4/1-11/1, not 4/1-11/4.   |
| 200047 | Filed appropriation on Rock Creek. Priority date (7/10/1948) post dates case 275.  |
|        | WRS 1946 and 1966 indicates approximately 0 acres irrigated. Flow rate may require modification pending resolution of maximum acres.   |
|        | It appears the correct period of use and period of diversion should be 4/1-11/1, not 4/1-11/4.   |
| 200049 | Filed appropriation on Clear Creek. Priority date (7/16/1910) post dates case 646.   |

|        |   |
|--------|---|
|        | WRS 1946 and 1966 indicates approximately 0 acres irrigated. USDA aerial photo date 10/3/1980 indicates 229 acres irrigated. Flow rate may require modification pending resolution of maximum acres. Water is not diverted from the source claimed, a historical appropriation from the claimed source cannot be confirmed.   |
|        | It appears the correct period of use and period of diversion should be 4/1-11/1, not 4/1-11/4.  |
|        |   |
| 216277 | Filed appropriation on Clear Creek. Priority date (7/16/1910) post dates case 646.  |
|        | 1946 WRS Survey indicates Highline Ditch was in use and Place of use was irrigated. WRS 1966 indicates Highline Ditch was not in use and 0 acres irrigated. Water is not diverted from the source claimed, a historical appropriation from the claimed source cannot be confirmed. On September 12, 2001 a fully signed agreement was filed by Rusty Devries which specifies increasing the flow rate of this claim to 6.25 CFS. This is deemed a late objection and will be heard after notice on the next objection list. |
|        | It appears the correct period of use and period of diversion should be 5/15 to 11/15, not 5/15 to 11/19.  |
|        |   |
| 200051 | Filed right on Spring, Unnamed Tributary of Cow Creek (Tributary of Rock Creek), priority date (6/22/1898) pre dates case 275.  |
|        | WRS 1946 and 1966 indicates approximately 0 acres irrigated. USDA aerial photo dated 10/3/1980 indicates 20 acres irrigated. Flow rate may require modification pending resolution of maximum acres.  |
|        | It appears the correct period of use and period of diversion should be 4/1-11/1, not 4/1-11/4.  |
|        |   |
| 200052 | Filed right on Clear Creek, priority date (7/10/1948) post dates case 646.  |
|        | WRS 1946 and 1966 indicates 0 acres irrigated. USDA aerial photo date 10/3/1980 indicates 109 acres irrigated. Flow rate may require modification pending resolution of maximum acres. Water is not diverted from the source claimed, a historical appropriation from the claimed source cannot be confirmed.   |
|        | It appears the correct period of use and period of diversion should be 4/1-11/1, not 4/1-11/4.  |
|        |   |
| 215152 | Filed right on Clear Creek, priority date (7/16/30/1973) post dates case 646.   |
|        | current owners (DNRC records): Rusty D & Ernest G Devries.  |
|        | current owners (cadastral): Gene & Ronna Klamert.   |
|        | Late claim filed (6/24/1996) after preliminary decree was issued (6/9/1993).  |
|        | WRS 1966 indicates 0 acres irrigated. Flow rate may require modification pending resolution of maximum acres. Water is not diverted from the source claimed, a historical appropriation from the claimed source cannot be confirmed.  |

#### 4.A

Summarized information including issues available to DNRC and issues identified by Larry Luloff (filed with the Montana Water Court on December 8, 2009).

#### Index 4.A

| Clear Creek | Basin 43D  |
|-------------|--|
| 13765       | Non Decreed Right for Clear Creek water, priority date (7/1/1894) predates case 646.   |
|             | According to WRS, "Jones Ditch" does not appear to be associated with this claim. Currently, Jones Ditch is the means of conveyance indentified DNRC records                                       |
|             | Period of diversion and Period of use should be 4/15 to 10/15, not 4/15 to 10/19.  |
| 36641       | This claim is for water decreed in case 275 out of Clear Creek.  |
|             | Current issue remark on this claim states: "The combined flow rate for this group of supplemental rights is 70.26 gpm per acre. The flow rate guideline for individual claims is 17 gpm per acre." |
|             | Period of diversion and Period of use should be 3/1 to 11/1, not 3/1 to 11/4.  |
| 11567       | Filed right on Knowlton Creek, priority date (1/11/1896) predates case 646. Claimed source is a tributary of Clear Creek.  |
| 13766       | Filed right for Clear Creek water. Priority date (7/1/1896) predates case 646.   |
|             | Period of diversion and Period of use 4/15 to 10/19 is an error, should be 4/15 to 10/15.  |
| 200089      | Decreed in case 646. Carbon County WRS 1966 indicates 67 acres irrigated. Carbon County WRS 1946 indicates 100 acres irrigated. USDA aerial photo dated 10/3/1980 indicates 339 acres irrigated.   |
|             | Period of diversion and Period of use should be 4/15 to 11/15, not 4/15 to 11/19.  |
| 200090      | Decreed in case 646. Carbon County WRS 1966 indicates 67 acres irrigated. Carbon County WRS 1946 indicates 100 acres irrigated. USDA aerial photo dated 10/3/1980 indicates 339 acres irrigated.   |
|             | Period of diversion and Period of use should be 4/15 to 11/15, not 4/15 to 11/19.  |
| 11566       | Filed right for Knowlton Creek water, priority date (8/22/1898) predates case 646. Claimed source is a tributary of Clear Creek which is a tributary of Rock Creek.                                |
| 29267       | Filed right for Clear Creek water, priority date (5/1/1899) predates case 646. Claimed source is Clear Creek which is a tributary of Rock Creek.   |
|             | Period of diversion and Period of use should be 3/15 to 11/15, not 3/15 to 11/19.  |
| 36534       | Filed right on Rosetta Creek. Priority date (3/25/1901) predates case 646. Claimed source is a tributary of Clear Creek which is a tributary of Rock Creek.  |
|             | Period of diversion and Period of use should be 4/15 to 10/15, not 4/15 to 10/19.  |
| 200091      | Decreed in case 646. Carbon County WRS 1966 indicates 67 acres irrigated. Carbon County WRS 1946 indicates 100 acres irrigated. USDA aerial photo dated 10/3/1980 indicates 339 acres irrigated.   |
|             | Period of diversion and Period of use should be 4/15 to 11/15, not 4/15 to 11/19.  |

|        |  |
|--------|--|
| 200048 | Filed right claiming Clear Creek water that utilizes Rock Creek as a natural carrier to deliver water to the point of diversion. Priority date (7/16/1910) post dates cases 275 and 646. Issues with this claim include: Water is not diverted from the source claimed, a historical appropriation from the claimed source (Clear Creek) cannot be substantiated. Flow rate may require modification based on resolution of maximum acre issues. Carbon County WRS 1946 indicates 0 acres irrigated. Carbon County WRS 1966 indicates 0 acres irrigated. USDA aerial photo date 10/3/1980 appears to indicate 384 acres irrigated. |
|        | Period of diversion and Period of use should be 4/1 to 11/1, not 4/1 to 11/4.  |

**Rock Creek** Basin 43D

|        |   |
|--------|---|
| 31150  | Filed right on Rock Creek. Priority date (7/12/1885) predates earliest decreed priority date in case 275. Pre cessation priority date.  |
|        | Period of diversion and Period of use should be 4/1 to 11/1, not 4/1 to 11/4.   |
| 10341  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 4/1 to 11/1, not 4/1 to 11/4.   |
| 10342  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 4/1 to 11/1, not 4/1 to 11/4.   |
| 13910  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | place of use error: place of use claimed on claim form, on exam worksheet and in decree is section 36, currently appears as section 26, which appears to be in error.   |
|        | Period of diversion and Period of use should be 3/10 to 11/1, not 3/10 to 11/4.   |
| 13912  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 3/10 to 11/1, not 3/10 to 11/4.   |
| 17397  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
| 19167  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 4/1 to 11/1, not 4/1 to 11/4.   |
| 195990 | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 4/15 to 10/15, not 4/15 to 10/19.   |
| 197705 | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 4/20 to 10/1, not 4/20 to 10/4  |
| 197706 | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 4/20 to 10/1, not 4/20 to 10/4  |
| 200082 | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
| 25569  | Decreed in case 275 with pre cessation priority date (7/1/1889).  |
|        | Period of diversion and Period of use should be 3/21 to 9/30, not 3/20 to 9/30.   |
| 197616 | Use right on Rock Creek, priority date (6/30/1890) predates case 275.   |
|        | Priority date may be questionable. Flow rate may require modification. Carbon County WRS 1946 indicates 30 acres irrigated. USDA aerial photo dated 10/3/1980 indicates 64.2 acres irrigated. A September 1990 field investigation found remnants of a ditch serving the claimed place of use. Total historically irrigated acres and last year of operation were not determinable. |

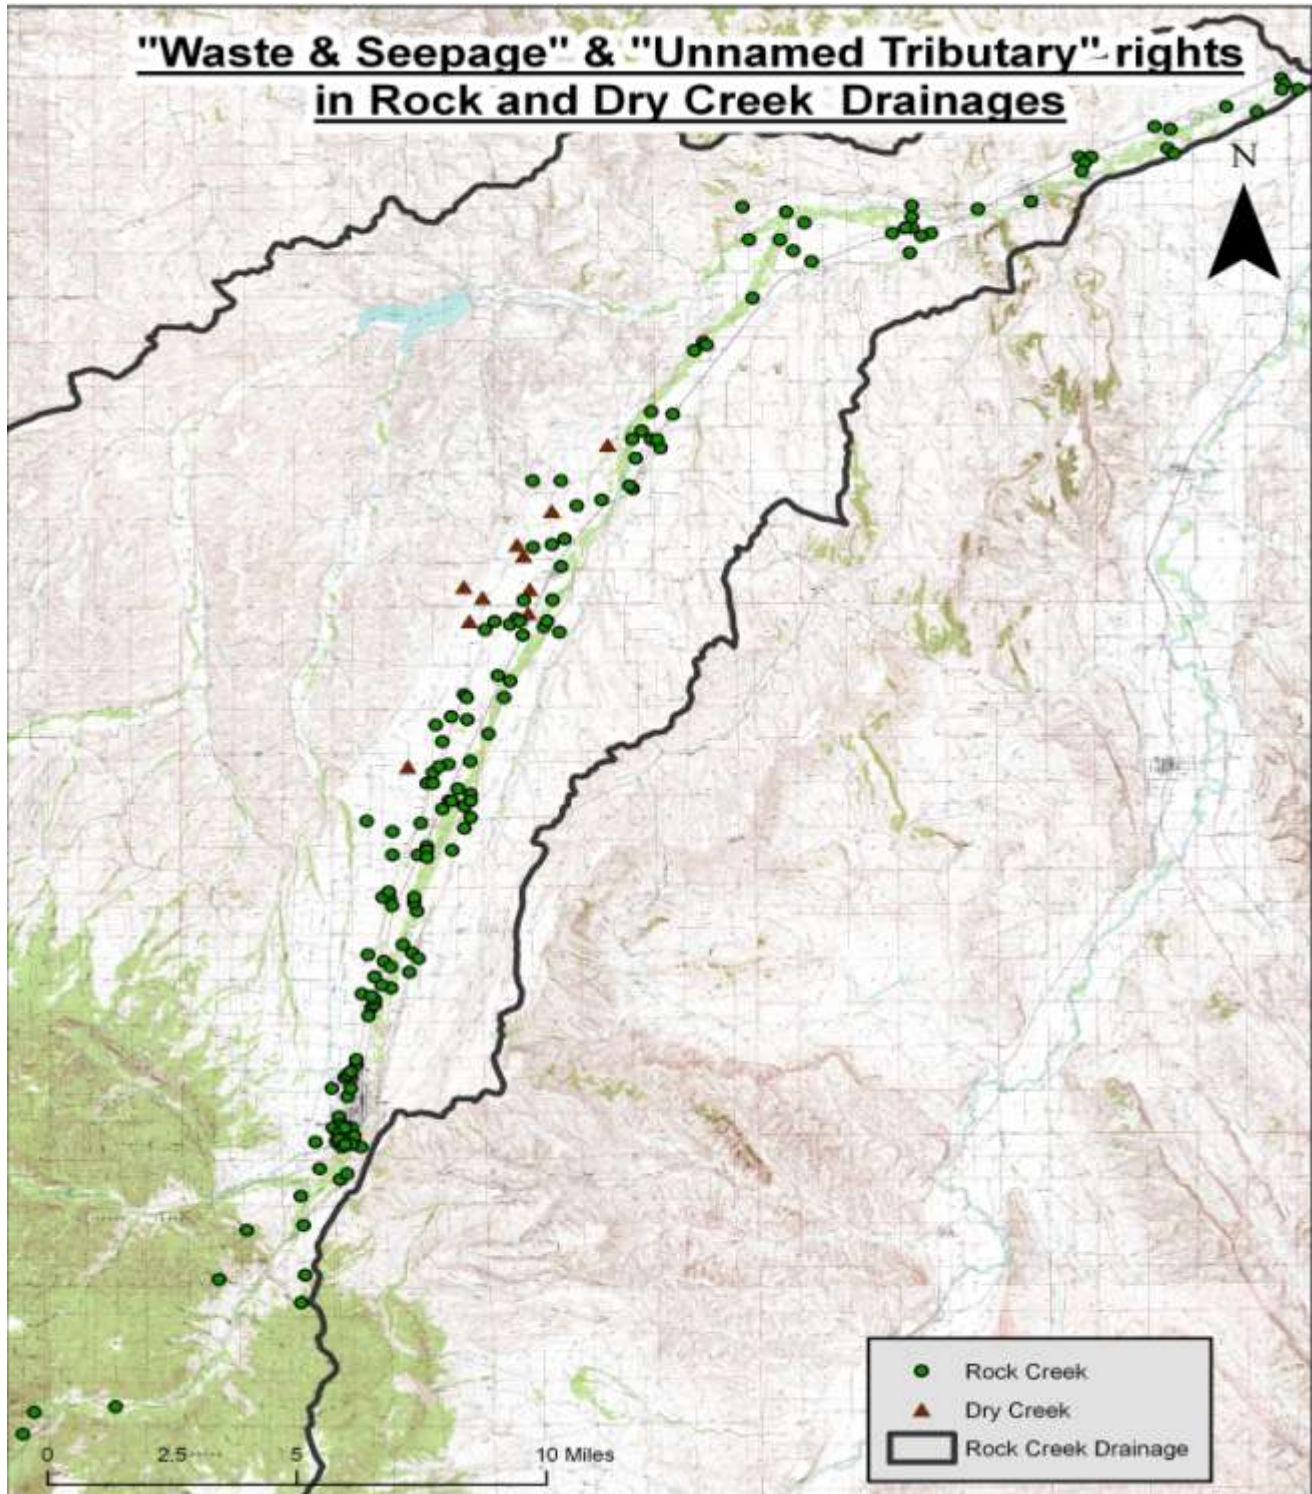

|        |   |
|--------|---|
| 6534   | Case 275 Decreed 59.1 CFS with priority date of 10/3/1892. The Carbon County Water Resources Survey (1946) indicates 4,520 acres irrigated and the Carbon County Water Resources Survey (1966) indicates 5,260 acres irrigated. According to information submitted as part of this Certification Request by Larry Luloff, It appears that land not patented until 1901-1915 is being irrigated with 1892 decreed water. This may imply an expansion of the right. It should also be noted that DNRC examination of 1901-1915 land patents would not have been researched and examined by DNRC's claim examination efforts, unless submitted in the claim file or directed by the Water Court, theses documents in this case where outside of the scope of examination.  |
| 14993  | Case 275 Decreed 33.38 CFS with priority date of 11/18/1892. According to information submitted as part of this Certification Request by Larry Luloff, land in section 16 was acquired from the State of Montana in 1904 and 1909. This land is now being irrigated with 1892 decreed water. It appears that according to Luloff, this brings into question the priority date and flow rate for water applied to or appurtenant to this land in section 16. This may imply an expansion of the right has occurred. It should also be noted that DNRC examination of 1904-1909 land ownership records would not have been researched and examined by DNRC's claim examination efforts, unless submitted in the claim file or directed by the Water Court, theses documents in this case where outside of the scope of examination. |
| 15706  | Water right 15706 claims 24.18 CFS of the 26 CFS decreed to predecessors in interest of Elbow Ditch Company, priority date 6/1/1893.  |
|        | It appears Period of diversion and Period of use should be 4/15 to 10/15, not 4/15 to 10/19.  |
| 15710  | Water right 15710 claims 3.83 CFS all of which was decreed in case 275 to predecessors in interest of Frank E Sterns, priority date 6/1/1893.   |
|        | It appears Period of diversion and Period of use should be 4/15 to 10/15, not 4/15 to 10/19.  |
| 20236  | There appear to be no issues with this claim. 1.95 CFS (78 miner's inches) is the amount of water decreed to D.R. Drake in case 275.  |
| 195942 | Filed right on Rock Creek, priority date (5/5/1894) predates case 275.  |
| 39533  | Filed right on Rock Creek, priority date (7/25/1894) predates case 275.   |
|        | Carbon County WRS 1966 indicates 12 acres irrigated. Carbon County WRS 1946 indicates 12 acres irrigated. USDA photo dated 10/3/1980 indicates 13.8 acres irrigated. Flow Rate, priority date and amendment issue remarks are also currently on the claim.  |
|        | Carbon County WRS 1946 indicates 0 acres irrigated  |
| 4944   | Joliet Ditch is identified on both the 1946 and 1965 WRS. The potential issues with this claim include the ditch name and/or the point of diversion land description. The current legal land description for the point of diversion match Duffield Ditch, not Joliet Ditch.   |
|        | Period of diversion and Period of use should be 4/1 to 11/26, not 4/1 to 11/29  |
| 208798 | Use right on Rock Creek, priority date (7/31/1895) predates case 275.   |
|        | Carbon County WRS 1946 indicated 54 acres irrigated, and USDA aerial photo dated 10/3/1980 indicates 111 acres irrigated. These acre values are appropriately identified by DNRC as Issue Remarks. The current Issue Remark that references the 1966 Carbon county WRS and 131 acres irrigated does not apply. 131 acres is within the contact points and as a result. It appears, this issue remark should be removed.   |
|        | Period of diversion and Period of use should be 4/15 to 10/15, not 4/15 to 10/19.   |
| 112017 | Filed right on West Fork Rock Creek, priority date (8/27/1896) predates case 275.   |

|        |   |
|--------|---|
|        | Carbon County WRS 1966 and 09/26/1980 USDA aerial photo indicate 70 acres irrigated, these remarks are appropriate. The acre issue remark that refers to 90 acres irrigated (1946 Carbon County WRS) is not applicable as 90 acres is within the contact points. It appears, this issue remark should be removed. |
|        | Period of diversion and Period of use should be 4/15 to 11/1, not 4/15 to 11/4.   |
| 14954  | Use right on Rock Creek, priority date (3/26/1900) predates case 275.   |
|        | Carbon County WRS 1966 indicates 210 acres irrigated. Carbon County WRS 1946 indicates 304 acres irrigated. USDA photo dated 10/3/1980 indicates 315.1 acres irrigated.   |
|        | Two of the three examined acre values exceed contact point range, and one of the three is below the contact point range. These issue remarks appear appropriate. Flow rate issue also probable.   |
|        | It appears, Period of diversion and Period of use should be 5/1 to 10/1 not 5/1 to 10/4   |
| 200043 | Decreed 3.25 CFS in case 275. According to Carbon County WRS, the place of use was not irrigated in 1946 or 1966. Issue remark addressing 10/3/1980 photo does not apply, photo indicates 140 acres irrigated, which is within contact points.  |
|        | Period of diversion and Period of use should be 4/1 to 11/1 not 4/1 to 11/4.  |
| 200045 | Decreed 2.5 CFS in case 275. According to Carbon County WRS, the place of use was not irrigated in 1946 or 1966.  |
|        | Period of diversion and Period of use should be 4/1 to 11/1 not 4/1 to 11/4.  |

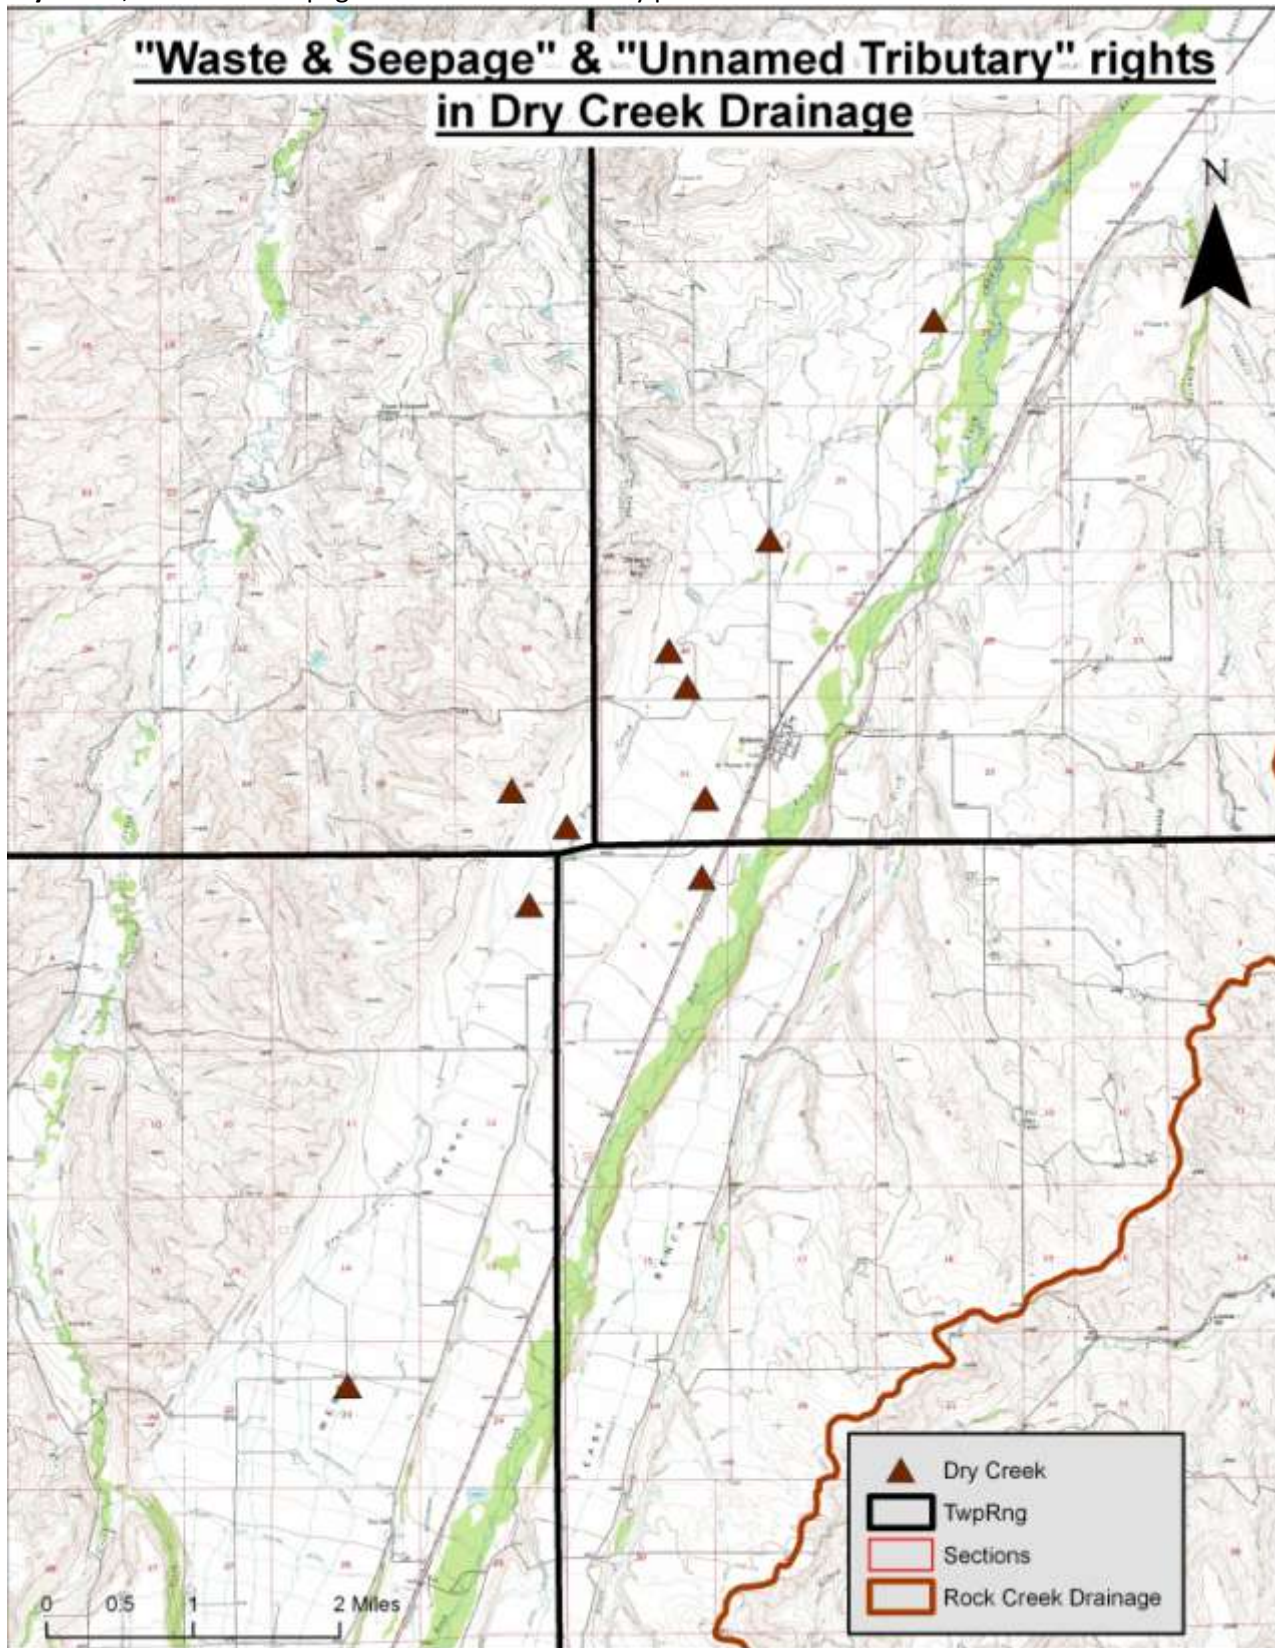

## 5.A

Attached as 5.A, is an index of waste and seepage and unnamed tributary rights in Rock Creek drainage and Dry Creek drainage. Basin 43D.

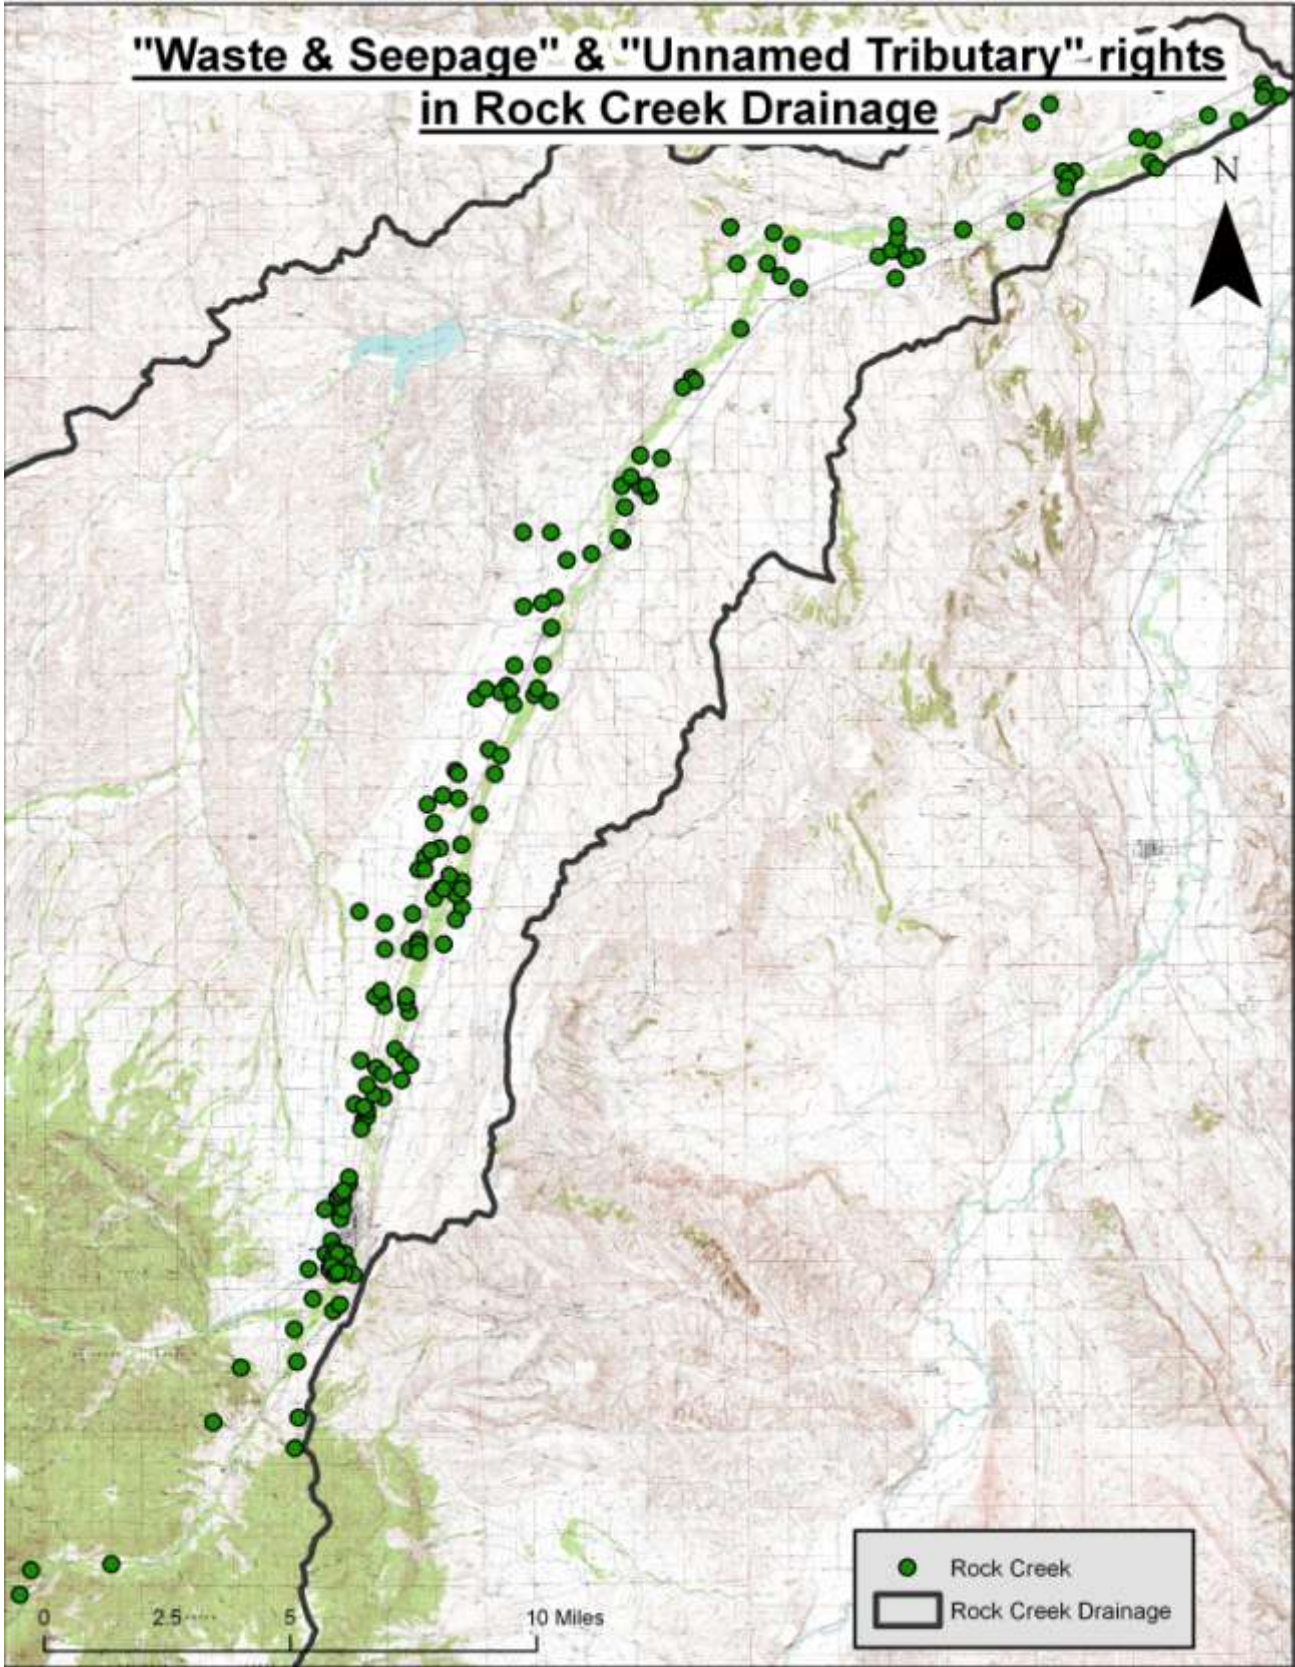

### Overview map

Dry Creek, waste and seepage and unnamed tributary points of diversion. Basin 43D.

Rock Creek, waste and seepage and unnamed tributary points of diversion. Basin 43D.

**Index 5.A** - index of “waste and seepage” and “unnamed tributary” rights in Rock Creek drainage and Dry Creek drainage.

43D 111904 00 has an incorrect source name. Currently in DNRC records: Spring, Unnamed Tributary of Rock Creek. It appears the source should be corrected to: Spring, Unnamed Tributary of Red Lodge Creek.

43D 198634 00 has an incorrect source name. Currently in DNRC records: Unnamed Tributary of Rock Creek. It appears the source should be corrected to Unnamed Tributary of Red Lodge Creek.

**6. Has claim 43D 195945 00 historically used the Hunter-Russett Ditch?**

It is not clear if this claim has historically used the Hunter-Russett Ditch. This claim is for a Filed Right (Hunter-Russett Ditch) on Rock Creek with a priority date that pre dates case 275. Priority date predates all other rights including several decreed rights that use the Hunter-Russett ditch. According to Curtis Schwend the Hunter-Russett ditch doesn't have capacity for this additional flow. At this time, the historic capacity of the ditch is not available to DNRC. This brings into question the historic appropriation of this 4.17 CFS claimed under 195945. Curtis Schwend also claims this water wasn't used in the Hunter-Russett Ditch prior to 2005. Filed rights 195942 and 195945 reference the same Notice of Appropriation, claiming the same water multiple times at two different points of diversion (Hunter-Russett Ditch and Finn Ditch). If this claim were examined today, the following issue remark would be applied to describe this issue referenced above: THE TYPE OF HISTORICAL RIGHT, PRIORITY DATE, AND FLOW RATE MAY BE QUESTIONABLE. THE CLAIMS FOLLOWING THIS STATEMENT USE THE SAME FILED APPROPRIATION TO DOCUMENT THE RIGHT. THE COMBINED FLOW RATE FOR THIS GROUP OF CLAIMS EXCEEDS THE TOTAL OF THE ORIGINAL APPROPRIATION, 195942 and 195945.

Place of use and point of diversion referenced in the Notice of Water Right appropriation are questionable and cannot be refined. In reference to the place of intended use, the Filed Notice states: "irrigation of three claims which are located about five miles in a westerly direction from Merrit Station (Roberts, Montana)." The claimed place of use for this right is located 2 to 2.5 miles south-west of Roberts. This approximate 2-3 mile difference between the current claimed place of use and the place of use described in the Filed Notice is significant and brings into question the relationship between the current place of use and the place of use identified in the Filed Notice. It appears the period of diversion and period of use should be 4/1 to 10/1 not 4/1 to 10/4.

**7. Has claim 43D 216354 00 historically used the Hunter Ditch, also known as the Hunter Northy Ditch?**

This appropriation for Dry Creek water diverted into the Hunter Ditch (also known as Hunter-Northy Ditch) cannot be confirmed. This claim is for a use Right on Dry Creek, priority date (4/1/1965) post dates case 2330 (Dry Creek 1921). This implied claim was generated by the Montana Water Court based on information in claim 195945. Claim 216354 was not included in the basin 43D Temporary Preliminary Decree issued 6/9/1993. Parent claim 195945 has a pending late objection filed May 5, 2008.

According to the Vannoy Ranch, the Ryan's (current owners of claim 216354) would need to have been in the books as shareholders in the Consolidated Ditch in order to appropriate water into the Hunter Northy Ditch. It appears the period of use and period of diversion should be 4/1 to 10/1 not 4/1 to 10/4.

**8. Has claim 43D 195942 00 historically used the Finn Ditch?**

It is not clear if this claim has historically used the Finn Ditch. This claim is for a Filed Right (Finn Ditch) on Rock Creek with a priority date that pre dates case 275. Priority date predates all other rights including several rights decreed that use the Finn Ditch. According to Curtis Schwend the Finn Ditch doesn't have capacity for this additional flow. At this time, the historic capacity of the ditch is not available to DNRC. This brings into question the historic appropriation of this 4.17 CFS claimed under 195942. Curtis Schwend also claims this water wasn't used in the Finn Ditch prior to 2005. Filed rights 195942 and 195945 reference the same Notice of Appropriation, claiming the same water multiple times at two different points of diversion (Hunter-Russett Ditch and Finn Ditch). If this claim were examined today, the following issue remark would be applied to describe this issue referenced above: THE TYPE OF HISTORICAL RIGHT, PRIORITY DATE, AND FLOW RATE MAY BE QUESTIONABLE. THE CLAIMS FOLLOWING THIS STATEMENT USE THE SAME FILED APPROPRIATION TO DOCUMENT THE RIGHT. THE COMBINED FLOW RATE FOR THIS GROUP OF CLAIMS EXCEEDS THE TOTAL OF THE ORIGINAL APPROPRIATION, 195942 and 195945.

Place of use and point of diversion referenced in the Notice of Water Right appropriation are questionable and cannot be refined. In reference to the place of intended use, the Filed Notice states: "irrigation of three claims which are located about five miles in a westerly direction from Merrit Station (Roberts, Montana)." The claimed place of use for this right is located 1.7 to 2.5 miles south-west of Roberts. This 2-3 mile difference between the current claimed place of use and the place of use described in the Filed Notice is significant and brings into question the relationship between the current place of use and the place of use identified in the Filed Notice. It appears the period of diversion and period of use should be 4/1 to 11/1 not 4/1 to 11/4.

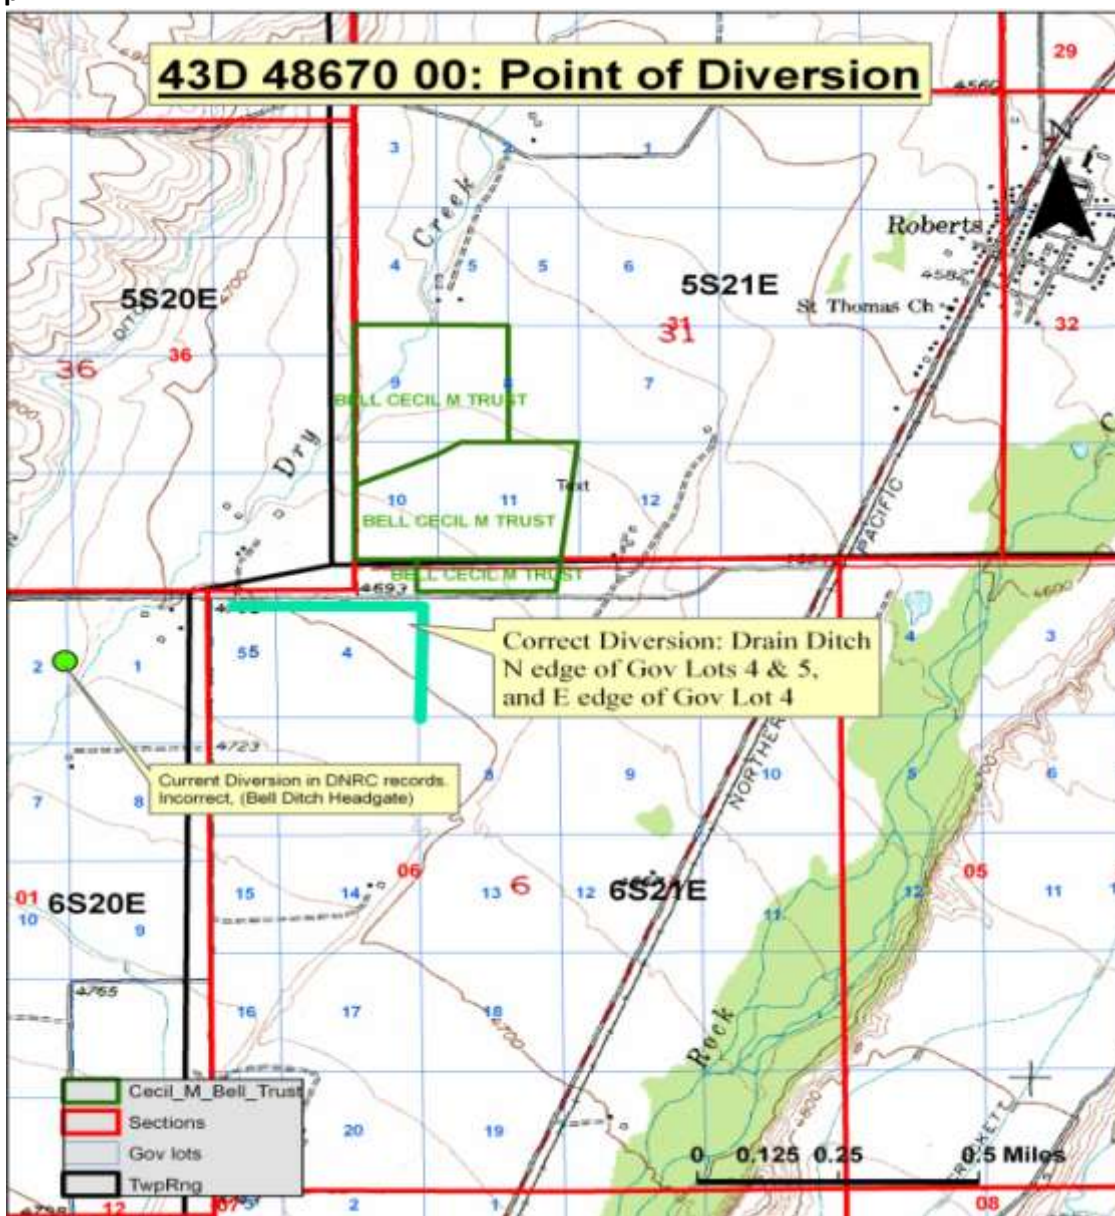

**9. Has claim 43D 18723 00 historically used the Finn Ditch?**

According to Carbon County WRS and information in the claim file, it appears this appropriation has historically used the Finn Ditch. Decreed in case 275. It appears the period of diversion and period of use should be 4/15 to 10/15 not 4/15 to 10/19.

**10.A.** Where is the headgate for claim 43D 48670 00 located?

Currently in DNRC's database, the legal land description for this headgate is located on Dry Creek. This is an error and doesn't reflect the intent of the claim. Currently this claim has errors with the point of diversion (legal land description) and means of diversion. As stated in the Notice of Appropriation, the Means of diversion should be corrected to "Ditch", and Point of Diversion(s) land description should be corrected to Government Lots 4 & 5, T 6S R 21E Section 6. The following additional information is need to describe this diversion: Waste water is collected in a drain ditch along the Easterly edge of Government Lot 4, and the Northerly edges of Government Lots 4 and 5 T 6S R 21E, Section 6. A Field investigation of these drain ditches located within Government Lots 4 & 5, T 6S R 21E Section 6, and their relationship to the claimed place of use is necessary to resolve these issues.

**10.A map**

**11.**

43D 198686 00 is a use right on Rock Creek, priority date (6/12/1895) predates case 275. Information in the Water Court Request For Assistance dated 2/8/2010 states: "The 1930 water commissioner books states 40 inches for this water right." This 1-time piece of information doesn't substantiate a lesser flow rate.

43D 36380 00 is a decreed right on Knowlton Creek. Decreed 80 MI in case 646. Currently in DNRC's records, there is not clear information regarding the relationship between the Pleasant Valley Canal, and the sources of Rock Creek, Clear Creek, Knowlton Creek and Rosetta Creek. It is unclear if an exchange of water is occurring with the Pleasant Valley Canal (Rock Creek water) and Jeffery Feeder Canal (Clear Creek, Knowlton Creek and Rosetta Creek).

43D 36534 00 is a filed right for 3.55 CFS on Rosetta Creek, priority date (3/25/1901) predates case 646. Currently in DNRC's records, there is not clear information regarding the relationship between the Pleasant Valley Canal, and the sources of Rock Creek, Clear Creek, Knowlton Creek and Rosetta Creek. It is unclear if an exchange of water is occurring with the Pleasant Valley Canal (Rock Creek water) and Jeffery Feeder Canal (Clear Creek, Knowlton Creek and Rosetta Creek). It appears period of use and period of diversion should be 4/1 to 11/15, not 4/1 to 11/19.

43D 36537 00 is a decreed right on Knowlton Creek. Decreed 60 MI in case 646. Currently in DNRC's records, there is not clear information regarding the relationship between the Pleasant Valley Canal, and the sources of Rock Creek, Clear Creek, Knowlton Creek and Rosetta Creek. It is unclear if an exchange of water is occurring with the Pleasant Valley Canal (Rock Creek water) and Jeffery Feeder Canal (Clear Creek, Knowlton Creek and Rosetta Creek). It appears period of use and period of diversion should be 4/1 to 11/15, not 4/1 to 11/19.

43D 36381 00 is a decreed right on Knowlton Creek. Decreed 140 MI in case 646. Currently in DNRC's records, there is not clear information regarding the relationship between the Pleasant Valley Canal, and the sources of Rock Creek, Clear Creek, Knowlton Creek and Rosetta Creek. It is unclear if an exchange of water is occurring with the Pleasant Valley Canal (Rock Creek water) and Jeffery Feeder Canal (Clear Creek, Knowlton Creek and Rosetta Creek). It appears period of use and period of diversion should be 4/1 to 11/15, not 4/1 to 11/19.

43D 11567 00 is a filed right for 2.5 cfs on Knowlton Creek priority date (1/11/1896) predates case 646.

43D 11566 00 is a filed right for 2.5 cfs on Knowlton Creek priority date (8/22/1898) predates case 646.

43D 3537 00 is a decreed right on Rock Creek. Decreed 140 MI in case 275. The claimed flow rate exceeds the 17 gallons per minute per acre guideline and cannot be confirmed due to lack of data. The flow rate equals 43.51 gpm per acre.

43D 6920 00 is a filed Right on Knowlton Creek, priority date (7/24/1902) predates case 646. Carbon County WRS 1966 indicates 18 acres irrigated. Flow rate may require modification pending resolution of maximum acres issue. Currently, the following issue remark is inappropriately on this claim: Aerial photograph 179-54, dated 9/26/1980, appears to indicate 34 acres irrigated. This examined acre value is within the contact points and as a result, this Issue Remark should be removed. Period of use and period of diversion should be 5/1 to 10/1 not 5/1 to 10/4.

DNRC has reviewed claims owned by William Kramer. Based on DNRC's review, it appears this certification request maybe related to claims 43D 25570 00 and 43D 29254 00. In case 43D-49 , it was concluded that prior decreed right to Walter Lerkind for 100 Miners Inches (2.5 CFS), priority date 5/31/1893 is appurtenant to lands currently owned by both William Kramer, and Hoferer Family Ranch Inc. Case 43D-49 concluded a proportional flow rate based on historically irrigated acres. William Kramer (claim 43D 25570 00) 66 miner's inches (1.65 CFS), and Hoferer Family Ranch Inc. (claim 43D 29254 00) 34 miner's inches (381 GPM). See Case 43D-49, FINDING OF FACT 10. Bill Kramer's certification request filed with the Montana Water Court 12/17/2009 fails to mention specific claims, or specific land. More information may be needed to understand the intent of his certification request.

**13.**

Point of diversion for this claim (as claimed) is NW of Section 5, Government Lot 4, T 5S R 21E is correct. Source is Blackbird Springs. Rock Creek is used as a natural carrier to convey water diverted from Blackbird Spring to a secondary point of diversion n in the SESENW of Section 32 T 5S R 21E. It appears, current DNRC records may need to be corrected to remove the Duncan Aiken Ditch as the primary diversion. According to Janell Henschel, this claim for Blackbird Spring is valid, but cannot be accurately measured at the Duncan-Aiken Headgate as much of Blackbird Spring water infiltrates into Rock Creek in many places. Based on review of the claim file and Janell Henschel's concerns, it appears the flow rate should be measured at Blackbird Spring and not the Duncan-Aiken headgate on Rock Creek.

**First Addendum to Request For Assistance,**

On April 5, 2010, DNRC received an Addendum Request For Assistance from the Montana Water Court. This request ordered DNRC to Review an attached Notice of Appropriation and address whether it appears to be the proper basis for the 1894 claims of William Burgan, Vannoy Ranch Co., Ken Kauffman, and Linda Ladvala.

The copy received by DNRC is difficult to read. However, it appears the date of filing with the Park County Courthouse was 6/6/1893. Information identified by DNRC and related to this review includes: This Notice of Water Right was filed in Park County, Montana for 2,500 miner's inches (62.5 CFS). Further information related to the location of the Crow Indian Reservation Boundary in 1893 is necessary to refine the diversion described within the Notice of Water Right. It appears the combined flow rate for current claims of William Burgan, Vannoy Ranch Co., Ken Kaufmann and Linda Ladvala may be 259.9 miner's inches (6.49 CFS). According to DNRC records, Vannoy Ranch Co does not currently have an 1894 water right out of Rock Creek, or Dry Creek. Based on this date, there is an approximate 1 year or season difference between the filing date 6/6/1893 and 1894. This is a common time gap for perfecting filed appropriations. Based on the priority date information it appears there may be a correlation between this Notice of Water Right with the current claims of William Burgan, Vannoy Ranch Co., Ken Kauffman, and Linda Ladvala. However, there is a large flow rate discrepancy between the Notice of Water Right Filing 2,500 miner's inches (62.5 CFS) and the combined flow rate for current claims of William Burgan, Vannoy Ranch Co., Ken Kaufmann and Linda Ladvala may be 259.9 miner's inches (6.49 CFS). After review of flow rate and priority date, no definite relationship was identified to current rights. If this filing is in fact the proper basis, the discrepancy in flow rates (62.5 CFS minus 6.49 CFS) would need to be more accurately accounted for and explained.

14.A Map - likely current ownership of land parcels indentified by DNRC.

15.

**Second Addendum to Request For Assistance:** Is the Barry-Pitts Ditch the correct diversion for Mr. Bell's water right claims?

Currently in DNRC records, "Cecil M. Bell", and "Cecil M. Bell Trust" have no claims for Rock Creek Water. Information submitted by William Burgan and filed with the Water Court on 4/14/2010 has been reviewed and the following details have been analyzed:

Barry-Pitts Ditch and the Chapman Ditch appear on the 1966 Water Resources Survey; however, neither are referred to in portions of case 275 referred to the Water Court by William Burgan. Documentation, filed with the Water Court on 4/14/2010 identifies the Mike Hill property as *"160 acres of unsurveyed government land lying immediately west and adjoining the ranch of James Berry"*. Case 275 goes on to decree 3.75 CFS of the Rock Creek water to this parcel. James Berry's parcel is also described as *160 acre tract of unsurveyed government land lying immediately west of the station of Merritt (Roberts, Mt.)*. Based on DNRC review, it cannot be confirmed if the Mike Hill property is in-fact now owned by Cecil M. Bell Trust. Without further supporting chain of title records, parcel descriptions in case 275 are too general to refine further. It can also not be confirmed that Rock Creek water was historically diverted as Cecil M Bell Trust currently has no water right records with DNRC for Rock Creek water. According to Luloff and William Burgan, this is the Mike Hill claim.

Conveyance through the Barry-Pitts Ditch cannot be confirmed. The Mike Hill Decreed right for 3.75 CFS, priority date 6/30/1899 is not currently claimed through the Barry-Pitts Ditch in its entirety, or at all.

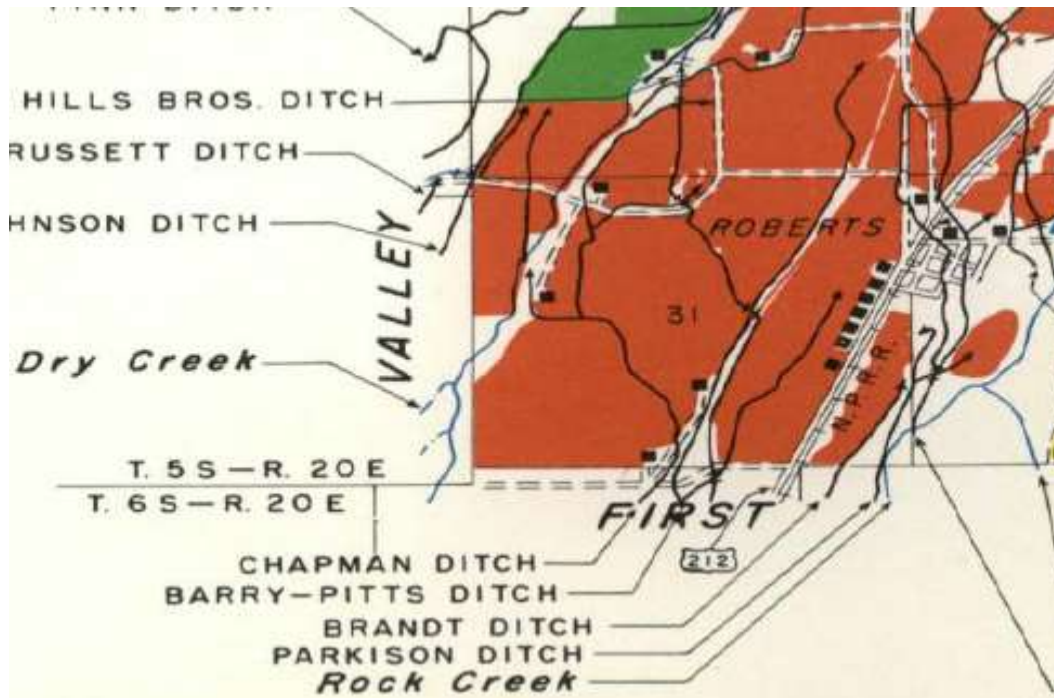

Index 15.B includes all claims for Rock Creek water with the priority Date equal to that of the Mike Hill Decreed Right, 6/30/1899.

Index 15.B
